

American Academy of Stem Cell Physicians

AASCP Zoom Lecture April 28th, 7:30pm (EST)

Russell Jaffe, M.D., Ph.D., "Immune Support and Virus Protection Recommendations"

[Dr. Russell Jaffe](#) received his BS, MD and Ph.D from the Boston University School of Medicine in 1972. He completed residency training in clinical chemistry at the National Institutes of Health (1973 – 1976), remaining on the permanent senior staff until 1979. He is board certified in Clinical Pathology and in Chemical Pathology.

As a physician and scientist who aspired to be comprehensive, objective, empiric and experiential, Dr. Jaffe started his career searching for deeper understanding, wisdom, evidence and insight in mechanisms of health. Through intense curiosity and learned skepticism, Dr. Jaffe sought to debunk the best known advocates of a variety of health promotion and healing systems. What started as a journey to disprove holistic forms of care became a rich educational experience that transformed Dr. Jaffe into a student and then researcher in such areas as Traditional Chinese Medicine, acupuncture, active meditation, homeopathy, and manipulative arts.

Motivated by his personal transition, Dr. Jaffe went on to reinvent himself professionally by starting the Health Studies Collegium, a think tank that focuses on sustainable solutions to global health needs. For the last 30

years, Dr. Jaffe has advocated a system that treats people not diagnoses, cause not consequence, and promotes long term sustainable solutions as an alternative to a system dominated by prescriptive, symptom suppressive solutions. Dr. Jaffe's cumulative experiences enabled him to take his efforts one step further and build [PERQUE Integrative Health](#), a company that offers the world scientifically proven, integrative health solutions that speed the transition from sick care to healthful caring.
