

As a practicing ophthalmologist, I know how important it is to maintain the highest standards in clinical care for both my practice and my patients. And as a research scientist, I know how critical quality data is to the development of strategies and therapies that can truly impact patient care and improve clinical outcomes.

For more than 30 years, I have been dedicated to making a positive difference in the lives of my patients. Like you, I am passionate about ensuring that my patients enjoy healthy eyes, improved vision, and a better quality of life.

Dr. Scheffer C. Tseng is an ophthalmologist in Miami, Florida and is affiliated with [Baptist Health Baptist Hospital](#). He received his medical degree from National Taiwan University College of Medicine and has been in practice for more than 30 years.

SPECIALTY

Ophthalmology

Ophthalmologists diagnose and treat eye diseases, including vision loss, detached retinas, cataracts and glaucoma. They perform laser retina surgery, refractive surgery and lens replacement operations.
